

Importing E00 files into ArcView 3.x

Related Guides:

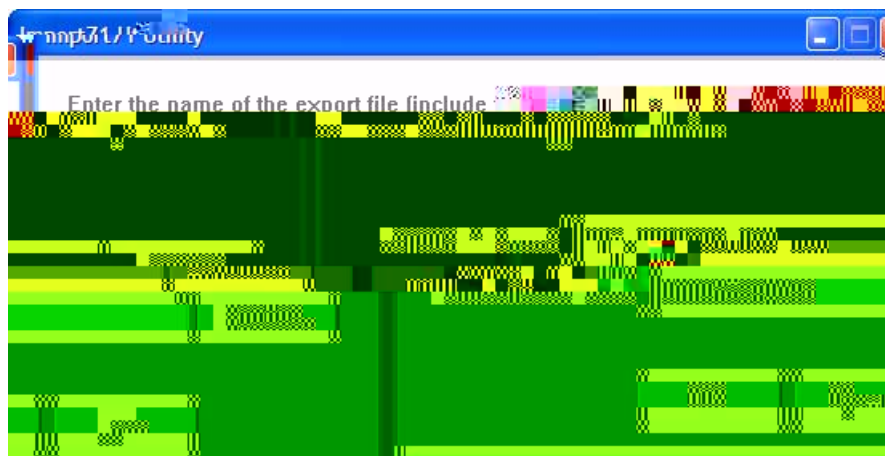

- [Importing E00 files into ArcGIS 8.x](#)
- [Importing E00 files into ArcGIS 9.x](#)

Requirements:

- ArcView
- E00 file

Procedure:

1. Open Import71 (from Start/Programs/ESRI/ArcView 3.x/Import 71)
2. In the dialogue box under Export Filename browse to the location of the E00 file.
3. In the dialogue box under “Output Data Source” enter the location where you want to save your data. Do not put an extension on the filename.
4. Click OK

NOTE: Neither the original file name, nor the output data source can contain spaces in the path
