It is also clear that having our a Faculties is problematic since n internships, and the Summer 20

delaying the start date of classe

The Fall 2020 term resulted in 25% fewer final examiniations being sch as compared to 2019, and it is reasonable to assume that there will be trend towards fewer final examinations for Winter 2021. Therefore, the pr is to reduce theirfial examination period to gain one additional makeday ir the schedule; therefore it is proposed the final examination period will days in length instead of 11. It is also proposed that the final examination be extended until Friday 30 Alipinstead of the current schedule which end Thursday 29 April; this would make up the second day in the schedule. TI makeup day can be achieved by the removal of the 'study day', wh normally a single day or a weekend between the laysofdalasses and the st of the Final Examination Period. Given that the new proposal for the Examination Period would involve a start date for Final Examinatic Monday 19 April, there would be a weekend as studys between the end term and the start of the Final Examination Period.

With this proposal, Ite Add/Drop deadline would move from Tuesday, Jar 19 to Friday, January 22. The Withdrawal with Refund deadline would from Tuesday, January 26
